About Me

I'm Camilo, a frontend developer passionate about building meaningful digital products. I started creating websites out of curiosity, and over time that interest evolved into a strong dedication to modern web and mobile development.

Selected Work

June 15, 2026

Cumbre — Digital Menu | Full-Stack Developer

Next.js 16 · React 19 · TypeScript · PostgreSQL · Tailwind CSS

- Designed and developed a web platform that digitizes restaurant menus and streamlines their management.
- Built a private admin dashboard for managing categories, products, availability, and content without requiring code changes.
- Implemented favorites functionality and dish popularity tracking.

April 04, 2026

Atelier Norte | Frontend Engineer

Next.js 16 · React 19 · TypeScript · Tailwind CSS · Cloudinary

- Developed an editorial website using Next.js and React to showcase the portfolio of an architecture studio.
- Implemented a modular layout system and a typography hierarchy focused on maximizing readability and visual impact.
- Integrated Cloudinary for optimized responsive image delivery and Framer Motion for scroll-reveal animations.
- Built a responsive experience with a strong focus on performance, accessibility, and frontend best practices.
